

“ There’s no way all these entities could have the access we need to train the number of people we need to train without Skillsoft.”

Dorothy Kret, ARPCT President

BUSINESS CHALLENGE

Established over 30 years ago to promote training and employment opportunities for people with disabilities in the field of computer technologies, the Association of Rehabilitation Programs in Computer Technology (ARPCT) has more than 60 member programs across North America. ARPCT develops partnerships among businesses, government and private rehabilitation service organizations, people with disabilities, and education and training facilities.

ARPCT has used Skillsoft materials for over 10 years to teach students the skills they need to help them find and prepare for employment. Their diverse client base, some of whom have never worked, means they need to offer many different types of education, classes and training.

HOW SKILLSOFT® HELPED

Thanks to the breadth and depth of Skillsoft’s course offerings, staff no longer have the burden of becoming experts in various business and technology topics. ARPCT introduced Skillsoft IT Skills Courseware Collection™, Skillsoft Desktop Skills Courseware Collection™, Skillsoft Business Skills Courseware Collection™ and Skillport® LMS.

KEY METRICS

13K+ More than **13,800** people have gone through Skillsoft training programs.

Many individuals have gone on to find rewarding careers in technology fields.

ARPCT users have suggested enhancements to Skillsoft and the company has paid attention

ABOUT ARPCT

For 35 years, the Association of Rehabilitation Programs in Computer Technology (ARPCT) has been a leading provider of best practices, online learning, and professional development for organizations providing support for people with disabilities. ARPCT’s mission is to promote communication and support among programs designed to train and place people with disabilities in areas related to computer technology and information processing.
